ORCHID ENTERPRISES, since 2003 - are active in manufacturing & supplying of PUF Insulated Panels, PUF Doors, PUF Slabs, Rockwool Panels for Roofing and Wall solutions. Our manufacturing facility is at Madhavaram, Chennai. With over two decades of experience in insulation production, our company has gained extensive knowledge and expertise in providing high-quality insulation solutions. Throughout the years, we have continuously improved our techniques and processes to ensure that our products meet the highest standards in the industry. Our team of skilled professionals utilizes state-of-the-art technology and innovative materials to manufacture insulation products that are not only efficient but also environmentally friendly. We take pride in our commitment to delivering exceptional insulation solutions that not only help to conserve energy but also contribute to creating a more sustainable future. Whether it's for residential, commercial, or industrial purposes, our insulation products are designed to offer superior thermal and acoustic insulation properties, providing comfort and reducing energy consumption. Trust our experience and choose our insulation solutions for your next project.

Our mission

We're on a mission to change the way the housing market works. Rather than offering one service or another, we want to combine as many and make our clients' lives easy and carefree. Our goal is to match our clients with the perfect properties that fit their tastes, needs, and budgets.

Our Vision

We want to live in a world where people can buy homes that match their needs rather than having to find a compromise and settle on the second-best option. That's why we take a lot of time and care in getting to know our clients from the moment they reach out to us and ask for our help.

Our Team

Our customers are the backbone of our business. Their support is what drives our growth and expansion. We value their trust and loyalty, and we strive to provide them with the best possible products and services. Without their continued support, we would not be able to achieve our goals and reach new heights. We are grateful for their partnership and work hard to ensure their satisfaction. Our success is directly linked to the satisfaction of our customers, and we continually strive to exceed their expectations. We value their feedback and take it into consideration to improve our offerings. As we continue to grow, we remain committed to delivering excellent customer service and building long-lasting relationships with our valued customers.

PUF / Rockwool Panel - Applications:

CLEAN ROOMS, COLD ROOMS, COMMERCIAL FREEZERS, PRE-FAB HOUSES, PRE-ENGINEERED BUILDINGS, INDUSTRIAL SHEDS, TEMPERATURE CONTROL ROOMS, PRE-FAB HOUSES, SHELTERS, PAINTING BOOTHS, SITE OFFICES, HIGH ALTITUDE HOUSES, LIFT & SHIFT CABINS, MOBILE HOUSES etc.

The Benefit

Sturdy, Durable. Light weight, Easy to carry, install and repair, Heat & Weatherproof, Acoustic Property, Fire Retardant & No maintenance.

Pre Engineered Building & Accessories

Industrial Enclosure

Pre /Engineered Building Structure

Manufacturers of Pre-Engineered Building with PUF / Rockwool Insulated Panels specialize in creating high-quality structures using pre-engineered building techniques. The pre-engineered building process allows for faster construction times and reduced costs compared to traditional building methods. Additionally, the use of PUF / Rockwool insulated panels ensures that the buildings are well-insulated, keeping the interiors cool in summer and warm in winter. We offer customizable solutions to meet the specific requirements of our clients.
